Notes:

On October 27, 2009, the Council, by motion, unanimously voted to create the Council Subcommittee on Economic Development. At the meeting, Vice Mayor Borowsky suggested three priorities for the proposed Economic Development Subcommittee:

- 1) Encouraging new business development, as well as supporting the needs of the existing business community, including, but not limited to, the application of planning services criteria in a consistent and practical manner.
- 2) Promoting and supporting the needs of the tourism community, including, but not limited to, a focus on the practical implementation of major community attractions and capital projects.
- 3) Developing and implementing amenities which are incidental but critical to community-wide economic development (e.g., enhancement of the City trolley system).
